

# Grouped Sampling Plan

Station group

```
graph TD; A[Station group] --> B[North station]; A --> C[ ]; A --> D[ ]; A --> E[ ]; A --> F[ ]; A --> G[ ]; A --> H[ ]; A --> I[ ]; A --> J[ ]; A --> K[ ]; A --> L[ ]; A --> M[ ]; A --> N[ ]; A --> O[ ]; A --> P[ ]; A --> Q[ ]; A --> R[ ]; A --> S[ ]; A --> T[ ]; A --> U[ ]; A --> V[ ]; A --> W[ ]; A --> X[ ]; A --> Y[ ]; A --> Z[ ];
```

The diagram illustrates a grouped sampling plan. It features a large blue rectangle labeled 'Station group' at the top left. Below this rectangle, there is a smaller blue rectangle labeled 'North station' that is indented to the right. This visual structure suggests a hierarchical organization where the 'Station group' is the parent category and the 'North station' is one of the individual units within that group.

North station

# Measured Values
